

Publication of Full Paper

- Accepted papers will be published in the **Conference Proceedings** and considered for inclusion in (depending upon suitability):
 - *International Journal of Cognitive Sciences, AI, Computing and Modeling (IJCSACM)*-Online, or any other journal with publishing partners
 - *IRBF Working Papers Series*
 - *Special Issue on “Intelligent River Systems and Climate Resilience”*
- Selected papers may also be recommended for **Scopus/UGC-approved journals** (upon author consent).

Publication of PowerPoint and Paper Summary as Podcast – WCPI Knowledge Library

In a pioneering step toward **open-access scientific communication**, the *International River Summit 2025*, in collaboration with the **World Council of Professionals and Industries (WCPI)**, will publish selected **PowerPoint presentations and summarized versions of full papers** as **audio/visual podcasts** in the **WCPI Digital Knowledge Library**.

This initiative bridges the gap between **academic research and public understanding** by transforming technical content into concise, engaging, and accessible formats. Each selected paper and presentation will be archived for long-term reference and global dissemination.

About the WCPI Knowledge Library

The **WCPI Knowledge Library** is a digital repository designed to preserve and share the collective intellectual contributions from global professionals, scientists, and industry leaders. Through multimedia formats — including videos, podcasts, and infographics — it enhances the **visibility and accessibility of scientific knowledge** beyond traditional publications.

Publication Components

1. **PowerPoint Presentation Repository:**
 - Authors’ presentation slides (in PDF or PPT format) will be curated and hosted with proper metadata (title, authors, affiliation, and keywords).
 - Each presentation will be given a **unique digital identifier (WCPI ID)** for easy citation and reference.
2. **Podcast Summary of Full Paper:**
 - Authors will provide a **2–3 minute recorded summary** (or written abstract converted into a narrated audio podcast).
 - These podcasts will summarize key insights, findings, and recommendations from the full papers.
 - Hosted on the **WCPI Podcast Channel** and linked to the corresponding full paper or proceedings.

Purpose and Impact

- To **enhance the reach** of research presented at the International River Summit 2025.
- To **support lifelong learning** and engagement for professionals, students, and policymakers worldwide.
- To provide **quick and accessible insights** into cutting-edge developments in **AI, IoT, water management, climate resilience, and sustainable agriculture**.
- To establish a **digital legacy** of the Summit through a globally accessible multimedia knowledge archive.

Process and Author Instructions

- Authors of accepted full papers will be invited to submit:
 1. A 10–12 slide PowerPoint presentation (summary of their paper).
 2. A 2–3 minute audio summary (MP3/WAV format) or a short video narration (optional).
- Submissions will be reviewed for clarity and quality by the WCPI Editorial Board.
- Final approved materials will be uploaded to the **WCPI Digital Library** and made publicly accessible under a **Creative Commons license (CC BY-NC 4.0)**.

Benefits to Authors

- Global visibility through WCPI’s digital and podcast platforms.
- DOI/WCPI ID for academic reference and citation.
- Featured inclusion in the “*Intelligent River Knowledge Series 2025*” digital publication.
- Opportunity for authors to share their voice and research impact beyond written media.
